

ITN 276 – Computer Forensics I

Project 1 – Interview A Digital Forensics Investigator

- Assignment Date: **Week 2**
- Interview Questions Due: **Week 3**
- Name,
Organization,
and contact details of interviewee due: **Week 4**
- Deliverables Due Date: **Week 6**

Learning Objectives:

- Meet a real-world, practicing digital forensics expert.
- Learn how they entered the profession and what qualifications and certifications they possess.

Tasks:

- Look up and schedule an interview with a practicing digital forensics expert.
- Conduct the interview either in-person (preferred), over the phone, or via email.
 - Submit a list of 10 interview questions to me for review and discussion before conducting the interview. **Due Week 3.** Once approved, you may submit these questions to the subject prior to the interview.
- General questions to ask would be:
 - How they entered the profession?
 - What's their level of formal training and where did they receive it?
 - What certifications do they possess?

Deliverables:

- A printed, two-page summary of the interview in Microsoft Word in the following format:
 - 1-inch margins top, bottom, left, and right
 - 1.5 line spacing
 - 12-point, Courier New font
 - Title centered at top of first page
 - One space between title and first paragraph.
 - Page numbers centered at bottom of page.
 - First paragraph contains details of interviewee to include name, organization, contact information, and date interviewed.
 - Overall look and feel of your report must be concise and professional.
 - Attach raw answers to questions as Appendix A.
